Hokkaido Local cuisine "Ishikari nabe"

*How to cook in Japanese →

How to cook

1. Take out frozen seafood from the bag and thaw in the refrigerator for about half a day.
2. Put the attached soup base with 500ml water per bag.
3. Boil the soup and add seafood, and then vegetables. Add Tofu and Shirataki with preference.
4. Cook rice, udon, or mochi (rice cake) in the left over soup to finish.

*Do not thaw completely. Best to cook when there are still some frozen parts.

*Once thawed, do not refreeze. Refreezing might cause deterioration in taste.
